

HOTFIX: Missing WebCapture Resource files in WingScan 10.6

NOTE:

This article refers to very specific old versions of DotImage and is preserved here for archival purposes. Using versions > 10.7 will completely mitigate this issue

We are aware of an issue where WebCapture Resource files are missing from the WingScan 10.6 install.

The issue is being corrected for future releases. In the meantime, you can download the missing files [LINK REMOVED](#)

- Download the zip file
- copy it to

C:\Program Files (x86)\Atalasoftware\WingScan 10.6\bin\2.0\x86\WebResources\

- Unzip it and let it overwrite files.

When complete the following files should be in the WebCapture directory:

atalaWebCapture.js

jquery-1.7.1.min.js

Kofax.WebCapture.Installer.msi

WingScan API Reference.pdf
