INFO: Running the Atalasoft Silverlight Demo (Obsolete)

WARNING Obsolete:

Atalasoft newer versions no longer support Silverlight web controls. Supports ability to assist in keeping existing Silverlight deployments working may be limited. No further fixes/updates will be issued for our Silverlight assemblies/controls

Main Article

The Atalasoft SilverlightImageViewer requires a **DotImage Photo Pro** or **Document Imaging** web deploy license. While testing from **localhost** you can use your developer or evaluation license. Once deployed to the real web server you will need to purchase a server license.

This license must be placed in the same folder as the web project that is hosting the Silverlight control.
